## DETAILED ACTION

### *Election/Restrictions*

Claims 1, 3, 7-9, and 11 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 12-15, directed to the process of making or using an allowable product and claim 17, directed to coatings made according to the allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 2/26/2009 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Furthermore, even though the prior art may disclose polymer-coated colored substrate particles which are further covered with silanes, they do not disclose (1) substrates such as those recited in instant claims 1 and 3 and (2) substrates coated with a layer of one or more polymers and a layer of one or more silanes applied thereto wherein the substrate is one of those recited in claim 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
